WALL STREET MAN
INSPECTS PADUCAH

Is Investigating the Possibilities of Cairo Electric Road.

Mr. James R. Turner Is a Guest of Promoters of the Projected Suburban.

WILL GO OVER THE ROUTE

Mr. James R. Turner, of New York, of the firm of "Turner Bros., stocks and bonds, Wall street, arrived this morning to enter negotiations for financing the electrical railroad proposed to be built between Paducah and Cairo by local capitalists and others.

Mr. Turner is accompanied by his wife, and comes to personally inspect the route of the proposed road and to investigate into the resources and possibilities of the road, if built, and will remain here several days. He was met here by Dr. C. E. Whitesides, Mr. J. J. Freundlich, of the city, and Mr. L. E. Whitesides, of New York, and J. S. Crump, of Columbus, Ind., stockholders in the railway company, the latter having been here for the past two days.

Today Mr. Turner is being driven over the city on an inspection of the factories and industries of the city and will be thoroughly acquainted with the town before a tour of the route is made. The route will be gone over this week and a meeting will then be held to consider signing up the papers to finance the road.

The local promoters of the road think there will be no hitch. Mr. Turner is being entertained and driven over the city by Messrs. Freundlich and the other promoters of the road.

HAVE TO

THE PROOF IS HERE.

A food experiment was made by a Dentist of College Point, L. I. "During my last year in college I was tempted, owing to a troublesome stomach and the poor meals supplied at the boarding houses near the college, to experiment with a cereal diet and so I started in on Grape-Nuts in September.

"At the end of a week I left off and started on another cereal food, thinking I needed a change, and so I went through the list. But I never felt so well as I had the first week and there fore went back to Grape-Nuts and cream and immediately improved again. I kept on Grape-Nuts for two months and to my surprise even gained several pounds in weight although working hard and doing so much brain work it surprised me; my fellow students predicted I would collapse. They finally frightened me into going back to the old boarding house diet and the result was that soon broke down.

"This started me back again and as soon as I took up the Grape-Nuts diet once more I again picked up, the improvement being immediate and permanent.

"It seems ridiculous that a man 5 feet 11 1-2 inches tall could live and work hard on a diet of almost nothing but Grape-Nuts but I have proved it and now instead of clogging up my system with foods that are only partly digestible and mostly waste I have found food that is all nourishment, of of course I mean Grape-Nuts.

"It would be my advice to all dyspeptics to take to Grape-Nuts until the system is cleaned out and strengthened, then gradually add a moderate meat and vegetable diet. Personally I cannot possibly recommend the wonderful food too highly."
